intestinal ultrasonography

CURRICULUM

Workshop module 1:
**Introduction of
Bowel Ultrasonography**

Copenhagen

October 23rd - October 25th

2020

Dear Colleagues.

Welcome to our international intestinal ultrasonography curriculum, developed by a group of international experts in intestinal ultrasound (IUS) and inflammatory bowel diseases (IBD). This program is IBUS & ECCO endorsed, aiming to provide an education map for IBD-interested / expert gastroenterologists, to develop competence in focused IUS.

We hope to increase the Danish & global use of ultrasound to non-invasively and safely characterize the bowel.

There are 3 components:

1. An Introduction to Bowel Ultrasonography (3 days): An Interactive Workshop. October 23rd - October 25th, 2020 in Copenhagen, Denmark
2. Hands-On Training (documentation of a minimum of independently-performed 40 real-life cases within 4 weeks), through a Danish IUS-center.
3. Final examination and Advanced Ultrasound Workshop, European Crohn's and Colitis Organization, 2021 or 2022).

We are looking forward to meeting you in Copenhagen.

Best wishes

Jacob W. Bjerrum & Rune L. Wilkens

Local organizers of the workshop on behalf of Danish Society of Gastroenterology and Hepatology & the non-profit association International Bowel ULTRASOUND GROUP e.V.
